## [Texas Technology Access Program](#)

Have you ever wanted to try an assistive device for compatibility and useability? Short-term device loans are available for 35 days. When individuals with disabilities, their families, and qualified professionals are able to borrow AT devices and assess them in the individual's normal environments, they are then better able to determine if the devices meet their needs or the needs of individuals with disabilities they are serving. They are able to make informed choices about what device to purchase or whether to purchase a device at all.

The program works with agencies that provide assistive technology device loans to develop a system of mutual referral so consumers can find the agency most appropriate to meet their equipment loan needs.

### Meet Hudson...

Hudson, age 8, is unable to move independently, but does have some mobility with his left upper extremity to access switches. He communicates via eye gaze. Hudson felt independent being able to 'roll dice' just by hitting a switch. With NAF's help, Hudson is playing games with classmates and family. Such JOY!

### We Need Your Help

*Donate ~ Sponsor ~ Volunteer*

Your \$25 donation will help provide clean catheters to a paralyzed child for one

month when their insurance won't cover the expense.

Your \$100 donation will help build a wheelchair ramp so we can get our clients out of rehab and through their front door at home.

Your \$200 donation will help widen the doorways in their homes so their wheelchair can fit through the bathroom door. Insurance doesn't covers home modifications.

Your \$500 donation will help provide life-changing medical equipment: wheelchairs and specialized shower chairs, etc. Most insurance only covers a small part of wheelchairs, if any, and no "bathing aids" are covered.
