

NEURO ASSISTANCE FOUNDATION

Help Today. Independence Tomorrow.

HAPPY HOLIDAYS!

The Ultimate Holiday Shopping List

Benefitting the Neuro Assistance Foundation

[Wiseman House Chocolates](#)

Chocolatier Kevin Wenzel started Wiseman House Chocolates in Hico, Texas in 1996. At Wiseman House Chocolates, we believe that chocolates are meant to be an experience – to be shared with friends, given as a gift or enjoyed alone in your thoughts. We take time in hand crafting each of our fine chocolates so that our customers will be pleased as they take time to savor every bite. So please, slow down, enjoy your chocolates, and savor life.

Please use the code NAF2024 for your entire purchase in the promotional code

box at check out. With this code, the Neuro Assistance Foundation will receive 30% back through December 31, 2024.

More than a century after S.W. McClaren and wife, Josie, started ranching on fertile soil near Cameron, Texas, 44 Farms proudly carries on their family values. Five generations later, those values, combined with the best that science and genetics have to offer, have helped 44 Farms grow into one of the premier registered Angus operations in America and producers of ethically raised, all-natural Black Angus beef.

We raise our beef to be worthy of the honor of its place on your family table. And we do so with the unwavering belief that a steak is only as extraordinary as the practices that bring it from pasture to table. We call it the RightWay. And it features our “never ever” commitment – 44 Farms All-Natural Steaks are harvested from cattle that have never received hormones, antibiotics or feed additives of any kind.

Please use the code NAF2024 for your entire purchase in the promotional code box at check out. With this code, the Neuro Assistance Foundation will receive a portion of the sales through December 31, 2024.

Thank you

Thank you so much for joining us. It was a beautiful and fun day, and your presence made it even more special!

The Greatest Gift Catalog Ever®

This year, Neuro Assistance Foundation is featured in the Greatest Gift Catalog Ever! This catalog is all about giving back, and we are honored to be part of this incredible initiative.

By choosing to support our cause through a donation or gift in the catalog, you're helping us get ramps, lifts, and equipment for those with spinal trauma. Every contribution makes a difference, and together we can create lasting change!

Check out the catalog and join us in spreading love and making a difference this holiday season. ♥

Don't wait—gifts that give back make the perfect holiday present!

Huge thanks to Speedway Children's Charities-Texas for the grant they provided to help provide quality of life items for NAF's kids! We love changing lives together!

Neilsen Scholarship Program Going Strong - Craig H. Neilsen Foundation

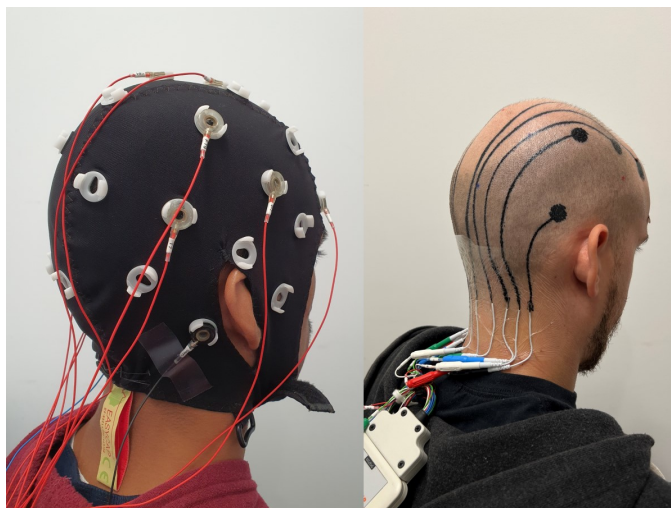

The Neilsen Scholarship Program (NSP) provides scholarships at selected colleges, universities, and community colleges to create and maintain opportunities for students with spinal cord injury to pursue higher education and lead full lives in and out of the classroom. To reduce socioeconomic barriers to success, these scholarships cover tuition and fees for undergraduate or graduate studies and include supplemental financial support for eligible students. Applications for NSP are by invitation only.

chnfoundation.org

Thank you C&R Medical Supplies - a veteran-owned and handicap employer providing Durable Medical Equipment. Their continuing support allows NAF to provide for our local communities.

Printed E-tattoo Ink-credible at Reading Brainwaves

Left: Conventional EEG cap and electrodes. Right: Printed e-tattoo sensors connected to conventional EEG reader.

Courtesy of The University of Texas at Austin Cockrell School of Engineering

"Researchers developed a conductive ink that can be printed directly on the surface of a patient's head and measure their brainwaves.... These e-tattoos could transform brain-computer interfaces, which use the same equipment as EEG, making them easier to deploy in daily activities and less obtrusive for the user.

Brain-computer interfaces allow people to control devices with just their

thoughts. This technology can help people with cognitive impairments live better lives. In recent years, Millán has used brain-computer interface technology to develop a brain-powered wheelchair ..."

AbleGamers is here to help people with disabilities get in the game by providing peer counseling, adaptive gaming technology, community inclusion initiatives, and working with gaming industry professionals and developers to make their games accessible. Their mission is to create opportunities that enable play in order to combat social isolation, foster inclusive communities, and improve the quality of life for people with disabilities. ablegamers.org

Introductions

Meet Grace...

Grace, age 8, is living with severe scoliosis. Her physician requested that NAF provide a P-Pod positioning chair. The P-Pod is an alternative seating device for the home that provides all the clinical benefits Grace needs while allowing her to actively participate with her family. The P-Pod has a bean-bag like design that provides positional support and comfort. NAF was eager to provide the seating system to benefit Grace.

\$1,800

\$1,000

Meet Graciela...

Graciela is living with a C5/C6 spinal cord injury. She has been unable to drive her adaptive vehicle for quite some time as it needed repairs and new parts. NAF was happy to help and she is back on the road.

"Thank you so much for all your help. I'm finally able to drive again"

~ Graciela

Meet Carmella...

Carmella, age 6, has severe scoliosis. Her doctor reached out to NAF to fund Carmella's Convaid Cruiser. Her insurance repeatedly denied coverage. The Convaid Cruiser is a popular pediatric special needs stroller with best-in-class, convenient, lightweight, and compact folding. It provides 5 years of growth capability through its seat depth extension system. This Cruiser allows for easy transport to Carmella's numerous appointments.

\$2,300

Meet Michelle...

Michelle, age 16, is living with severe scoliosis. Her doctor applied to NAF for an adaptive tricycle. Adaptive tricycle provides therapeutic, reciprocal exercise with all the fun of riding. An adaptive tricycle is often medically necessary for someone who cannot walk independently or who sits for long hours in a wheelchair. Adaptive tricycle provides fun, motivating activity for improving leg strength, balance, fitness, and endurance. Now Michelle can zoom around right alongside her friends on a tricycle that's as cool and colorful as anything on the sidewalk.

\$2,600

Meet Ernest...

Ernest, age 44, is living with cervical spinal cord injury and paraplegia following a gunshot wound. His social worker requested that NAF provide tracheostomy equipment and supplies. Ernest's insurance plan did not provide these essential supplies.

\$2,400

Recline

\$2,300

Meet Nelson...

Nelson, age 10, has severe scoliosis with global developmental delay is unable to stand/walk and has no control over his neck muscles. He needs a w/c with head/neck support. Mother was using a standard stroller.

- Join us supporting the NAF events - attend, volunteer, sponsor.
- Choose Neuro Assistance Foundation when shopping at
 - Kroger (Link reward card to LQ514)
 - Tom Thumb (Link reward card to 14315)
- Make a financial and/or equipment donation.

We Need Your Help

Donate ~ Sponsor ~ Volunteer

Your \$25 donation will help provide clean catheters to a paralyzed child for one month when their insurance won't cover the expense.

Your \$100 donation will help build a wheelchair ramp so we can get our clients out of rehab and through their front door at home.

Your \$200 donation will help widen the doorways in their homes so their wheelchair can fit through the bathroom door. Insurance doesn't covers home modifications.

Your \$500 donation will help provide life-changing medical equipment: wheelchairs and specialized shower chairs, etc. Most insurance only covers a small part of wheelchairs, if any, and no "bathing aids" are covered.
